

9. (Amended) The system of claim 3, wherein said supervisory server allows said home information communication terminal unit to download said service application program on behalf of said service provider in order for contracted dwelling house to receive customer service from said service provider.

---

REMARKS

The above amendments to claims 8 and 9 are being submitted in order to avoid the multiple dependent claim fee.

Respectfully submitted,

Felix J. D. Ambrosio  
Reg. No. 25,721

**MARKED-UP COPY OF CLAIM 8 AND 9**

8. (Amended) The system of [one of] claim 3 [to 7], wherein said home information communication terminal unit equipped in said each contracted dwelling house is offered a customer service from said service provider, by logging in said communication server of said service provider or a specific communication service server equipped on said communication network to download into said terminal unit and execute an application program stored in either one of said servers.

9. (Amended) The system of [one of] claim 3 [to 7], wherein said supervisory server allows said home information communication terminal unit to download said service application program on behalf of said service provider in order for contracted dwelling house to receive customer service from said service provider.
